

# CAR MEMBERS CODE OF ETHICS

We value open, honest, and fair transactions, conducted by trained and knowledgeable staff that will ensure integrity, accuracy, and safety at our facilities.

We value our role as critical partners in finding sustainable economic and environmental solutions, to operating as good corporate citizens, and to supporting the social welfare and economic development of the communities in which we live and work.

Members are committed to conducting business honestly, ensuring that their business practices are fair and accurate, and ensuring that products meet or exceed our customers' expectations. Members are encouraged to consider further measures to continually assess and improve their business practices, such as by participating in industry-sponsored programs or attending other business training and certification programs.

Members are committed to providing a safe and healthy workplace for their employees and the public. In addition, Members are encouraged to consider further measures to continually assess and improve safety practices in their workplace, as by participating in industry sponsored safety training and certification programs.

Members are committed to complying with all local, state, and federal Laws and regulations applicable to their businesses and facilities. In addition, Members are encouraged to consider further measures to continually assess compliance with applicable laws and regulations, such as by participating in industry-sponsored programs or similar programs addressing laws and regulations relating to the automotive recycling industry.
